## JUST LIFETIME INCOME: INFLATION LINKED

The Just Lifetime Income (Inflation Linked) provides a guaranteed income for life to people retiring from registered retirement schemes, or transferring from a living annuity.

It is designed for those who need a guaranteed level of income in retirement to pay recurring monthly expenses such as rent, groceries, water and electricity, health care, transport and insurance. It offers protection against a commonly used measure of inflation (Consumer Price Inflation).

### Important points

- Once the policy has started, your purchase amount cannot be returned and there is no cooling-off period.
- The policy has no surrender value at any time.

### Cession and attachment of the policy

You cannot use the policy as security, transfer it to someone else or make it over to a third party. Your creditors cannot attach the policy.

### Deductions for tax

Just is obliged to deduct tax from all income payments made to you unless your income is below the threshold at which one becomes liable for tax. We will calculate the tax payable to the South African Revenue Services (SARS) using the tax tables as issued by the SARS. If you want us to deduct an amount of tax which is different from the rate that we determine using the tax table, you must provide us with a tax directive issued by the SARS. A directive must be updated annually and it is your responsibility to do this. If we have not received an updated directive, tax will be deducted according to the applicable tax tables.

### Product conditions and details

	Entry Age	Purchase Amount
<b>Minimum</b>	50	R50 000.00
<b>Maximum</b>	None, however maximum age for underwriting is 85	R10 m*
